

Corporate Fact Sheet

Mission Statement & Guiding Principles

WITTENSTEIN is committed to being a **world-class partner** for customers of its **intelligent mechatronic drive technology, servo systems and components**. By using the power of **science, innovation, and forward thinking technology**, our goal is to be the **leader** in motion.

The Wittenstein philosophy is based on our core values of:

- Responsibility
- Trust
- Openness
- Innovation
- Change

Products

From precision planetary gear reducers to haptic technology for training devices, Wittenstein fulfills a range of motion requirements.

Mechatronic Components

Couplings, Sensors and Rack & Pinion Technology

Precision Gearboxes

Inline and Right-angle Modular Designs

Servo Actuators

Linear and Rotary

Servo Motors

Direct Drive, Mini & Specialty Motors

Control Loading Systems

Motors, Electronics and Software for Simulator Technology

Custom Servo Solutions

Project-based Custom Component and System Design and Creation

History

WITTENSTEIN is a privately-held global manufacturer of motion control components and solutions. The Company was founded in 1949 under the name DEWITTA, which was later changed to alpha getriebebau in 1984. It is known as WITTENSTEIN, Inc. (founded in 1992), WITTENSTEIN aerospace & simulation, Inc. (founded in 1999) and WITTENSTEIN arena, Inc. (founded in 2005) in North America.

Company KPI & Facts

WITTENSTEIN has the largest base of servo gearbox customers in the world, with over 1,000,000 servo gear reducers sold.

Sales (10/11)
\$270M

Employees
>1400 Worldwide

Companies
60 subsidiaries & agents
in 40 countries

R & D
10% invested in research &
development

Facilities
ISO 9001
ISO 13485 EN 46001
EASA Part 21G
EASA Part 145
